Hi Avi,

Sorry I missed your call, was in a meeting. Monday is a federal holiday so EPA offices are closed, but Tuesday works for me. I am planning to be down there at 10:30AM on Tuesday

Hi Michael,

How are you?

I'm planing to be in Cincinnati next Monday- the 19th.

Hope this works for you.

Thank you,

Avi

Hi Avi,

Thank you, this is perfect. Looking forward to getting the sampling started soon.

Thanks again,

Michael

Dear Michael,

Thank you for the mail,

Please see attached files with the information you requested.

Files attached include:

Operation manual, specification sheet, the operating range parameters, and water quality spec.

Hope this answers all your questions.

If there is anything else you need please do not hesitate to ask.

Looking forward to working with you.

All the best,

Avi

נושא: RE: Operating Ranges for Water Quality Parameters

Hi Avi,

Also, do you have any operating manuals, specification sheets, or other literature for the 350G? These would be useful reference materials.

Thanks,

Michael

Subject: Operating Ranges for Water Quality Parameters

Hi Avi,

As part of the study, we are planning to take periodic measurements of temperature, pH, conductivity, turbidity, dissolved oxygen, oxidation reduction potential, and/or dissolved oxygen to demonstrate that the unit is performing correctly and that produced water is of representative quality. Do you have operating ranges for any of these parameters, i.e. expected values or conditions under which the water quality is considered acceptable?

Thanks,

Michael
